

MÖLLER'S PUREST NORWECIAN

COD-LIVER OIL.

TRADE-MARK.

It is now about five years since we accepted the sole agency for North-America for this article; we did so only after a very careful examination of the facts connected with its manufacture, as we had reason to believe that a large proportion of the Cod Liver Oil which is sold is prepared in so careless a manner as to render it unfit for use.

Immediately upon its introduction into this country it took front rank as a pure and strictly reliable article, and we feel warranted in claiming it to be, *beyond any question, the best and most reliable Cod Liver Oil in the world.*

In view, therefore, of what we know of the article itself, and of the numberless testimonials it has received, we can with confidence recommend it to physicians, druggists, and consumers.

W. H. Schieffelin & Co.,

UNITED STATES and CANADAS.

PETER MÖLLER'S

(KNIGHT OF THE ORDERS OF VASA AND ST. OLAF,)

Purest Norwegian Cod Liver Oil.

The value of Peter Möller's services, in introducing a superior method of preparing Cod Liver Oil, has been signally recognized by the **NORWEGIAN GOVERNMENT** and several scientific Institutions; and His Majesty, **CHARLES XV.**, the King of Sweden and Norway, was pleased to confer on him the Order of Vasa, and has recently (April 2, 1853) still further rewarded his exertions in promoting an important branch of national industry, with the Order of Knighthood of St. Olaf.

The main objection to the use of Cod Liver Oil has been, hitherto, its loathsome taste and smell, arising from an utter disregard of cleanliness in the process of extraction, and from the livers being invariably in a more or less advanced stage of decomposition when submitted to treatment. Many patients are unable to take the colored oil in sufficient quantity to produce any therapeutic effect, and physicians are compelled to have recourse to the pale Newfoundland variety, though inferior in medicinal power, and not unfrequently productive of considerable organic derangement. These serious defects have now been satisfactorily remedied by the superior mode of preparation introduced by the maker of this oil; thus obtained, **LOFOTEN COD LIVER OIL IS PURE FLAVORED, FREE FROM SMELL, and IS BORNE WITH FACILITY BY THE MOST DELICATE STOMACH.**

Mr. Möller's process, which is carried on in factories located in the immediate vicinity of the fishing grounds on the Lofoten Islands, may be briefly described as follows:

So soon as the fish have been landed, the livers are taken out and submitted to treatment, a few hours being sufficient to affect the purity of the oil. All **POOR, SMALL, BRUISED, and DISEASED LIVERS ARE THROWN ASIDE**; and those selected, all of large size, are carefully cleaned, by washing in several waters, from blood, membrane, and other impurities; and all gall-bladders are watched for and removed. The livers are then introduced into a machine which minces them into very small pieces, or rather reduces them to a soft pulpy mass. This pulp is transferred to an apparatus heated externally by steam, and the mass gradually warmed to 100° or 102° Fahr. As fast as the oil exudes, it is drawn off and filtered. Filtration completes the process. The fresher the livers and the lower the temperature, the purer, paler, brighter, and the sweeter in taste will be the oil. When prepared by this method, Cod Liver Oil is **NEVER LIGHT BROWN NOR BROWN.**

THE FOLLOWING ARE EXTRACTS FROM SOME OF THE

TESTIMONIALS RECEIVED FROM EMINENT MEDICAL MEN.

LOUIS A. SAYRE, M.D., Professor of Orthopædic Surgery, New-York, New-York Academy of Medicine: Meeting October 7th, 1861. Dr. Sayre spoke of the extreme difficulty of getting any Cod Liver Oil that patients could digest. Of late years it had become almost impossible. . . . But he had two years since found an oil prepared by Möller, of Christiania, Norway, which was **PERFECTLY PURE**, and in every respect all that could be wished.

No. 13 EAST TWENTY-EIGHTH STREET, NEW-YORK, March 15, 1870.

MESSRS. W. H. SCHIEFFELIN & Co.: For some years I had given up the use of Cod Liver Oil altogether, but since my attention was called by Dr. Sayre to your Peter Möller's Cod Liver Oil, I have prescribed it almost daily, and have every reason to be perfectly satisfied with it. **J. MARION SIMS, M.D.**

H. B. SANDS, M.D., New-York, says: "I think it greatly superior to the oil commonly used."

JOHN C. THOROWGOOD, M.D., Member College Physicians, Assistant Physician to the City of London Hospital for Diseases of the Chest, Victoria Park, says:

"I feel it my duty to state that those who have taken it have done so with great comfort and ease, and further, with much relief to their symptoms. Mr. Möller's Cod Liver Oil appears to me to be a thoroughly trustworthy and pure oil, and possesses marked curative properties in consumption."

ABBOTTS SMITH, M.D., M.R.C.P., late physician to the North London Consumption Hospital, says of it:

"Owing to the manner in which it is prepared, it does not contain any products of decomposition, and it is therefore less objectionable to the taste and smell, and better borne by the stomach than other varieties of Cod Liver Oil. . . . It is more easily assimilated, and is productive of more immediate benefit than the other kinds of oil are."

Extract from **DR. RUDBECKS, M.D., L.R.C.P., M.R.C.S.**, Report on Cod Liver Oil in his "Vade Mecum," Part IV.:

"The Oil we invariably recommend for its easy assimilation, agreeableness, and high nutritive value, is Möller's Purest Norwegian Cod Liver Oil. . . . We are glad to be able to give our emphatic recommendation to so pure a preparation as the one above named."

Professor **W. BOECK, M.D.**, of Christiania, writes Peter Möller:

"I am pleased to hear you have established an agency in London for your Cod Liver Oil. * * * I took the opportunity of recommending it to many of my professional friends there, as the best adapted for medical use, knowing that you are always present at Lofoten during the Cod-fishing season, for the purpose of superintending the preparation of the oil from none but fresh livers."

This is the only Cod Liver Oil which received the First Prize at each of the following Exhibitions:

1862—London International Exhibition.

1865—Bergen Exhibition of Fisheries; Gold Medal of the Royal Society for the Welfare of Norway.

1866—Great Exhibition at Stockholm.

1866—International Exhibition, Boulogne.

1867—Paris International Exhibition: at which it took first prize among 23 competitors.

1873—Vienna International Exhibition; the only Highest Prize, out of 57 competitors.

Sole Agents for the United States and Canada.

SWAIM'S PANACEA,

FOR THE CURE OF SCROFULA, OR KING'S EVIL,

RHEUMATISM, ULCEROUS SORES,

White Swellings, Diseases of the Liver and Skin, General Debility, &c.,

AND ALL DISEASES ARISING FROM

IMPURITY OF THE BLOOD.

THIS Medicine has the singular fortune—a just tribute to its great merit—of being recommended by the most celebrated practitioners of medicine in the United States and Europe; whereas, not one of the spurious mixtures made in imitation of it, has the least support from the Medical Faculty. This fact offers an argument so plain and conclusive, that it need only be mentioned to enforce conviction.

FROM DR. SAMUEL R. MARSHALL,

Surgeon of the United States Naval Hospital, New York, &c.

I have used Mr. SWAIM'S PANACEA in several cases of secondary syphilis and mercurial disease, which were sent to the Naval Hospital at Brooklyn, and feel pleased to say, with complete success in every case.

SAMUEL R. MARSHALL, M.D.

FROM DR. VALENTINE MOTT,

Professor of Surgery in the University of New York, Surgeon of the New York Hospital, &c.

I have repeatedly used SWAIM'S PANACEA, both in the Hospital and in private practice, and have always found it to be a valuable medicine in chronic syphilitic and scrofulous complaints, and in obstinate cutaneous affections.

VALENTINE MOTT, M.D.

FROM DR. W. GIBSON,

Professor of Surgery in the University of Pennsylvania, Surgeon and Clinical Lecturer to the Almshouse Infirmary, &c.

I have employed the PANACEA of Mr. SWAIM in numerous instances within the last three years, and have always found it extremely efficacious, especially in secondary syphilis and in mercurial disease. I have no hesitation in pronouncing it a medicine of inestimable value.

W. GIBSON, M.D.

FROM DR. N. CHAPMAN,

Professor of the Institutes and Practice of Physic and Clinical Practice in the University of Pennsylvania, President of the Academy of Medicine of Philadelphia, &c.

I have, within the last two years, had an opportunity of seeing several cases of very inveterate ulcers, which, having resisted previously the regular modes of treatment, were healed by the use of Mr. SWAIM'S PANACEA; and I do believe, from what I have seen, that it will prove an important remedy in scrofulous, venereal, and mercurial diseases.

N. CHAPMAN, M.D.

FROM DR. WILLIAM P. DEWEES,

Professor of Midwifery in the University of Pennsylvania, Member of the American Philosophical Society, and of the Philadelphia Medical Society, &c.

I have much pleasure in saying I have witnessed the most decided and happy effects, in several instances of inveterate disease, from Mr. SWAIM'S PANACEA, where other remedies have failed; one was that of Mrs. BROWN.

WM. P. DEWEES, M.D.

Prepared at Swaim's Laboratory, No 113 South Seventh Street, below Chestnut, Philadelphia,

And Sold by every respectable Druggist in the United States.

LUCCA "CREAM" SALAD OIL.

This new article of commerce was introduced into the American market, from Tuscany, in the Spring of 1872, after a permanent arrangement had been entered into, through our friends, for its manufacture and bottling at Leghorn.

The sale of this Oil has been a success; it having met with the decided approbation of caterers, hotel-proprietors, restaurant-keepers, and families, for the preparation of Salads, Dressings, etc.

From long experience in the sale of bottled Salad Oils, we are led to consider this article as of the very best character, and worthy of the attention of all parties requiring the very finest quality of *Pure Olive Salad Oil*.

This Oil is put up in bottles of four different sizes, namely:

QUARTS,	in boxes containing	1 doz. each,	.	.	\$9.50 per box.					
PINTS,	"	"	2	"	"	.	.	10.50	"	"
HALF-PINTS,	"	"	2	"	"	.	.	7.50	"	"
FLASKS,	"	"	2½	"	"	.	.	10.50	"	"

SOLE IMPORTERS OF

LUCCA "CREAM" SALAD OIL.

TRADE-MARK, REGISTERED.

SAM'L KIDDER & Co.'s

Rochelle Salt, Seidlitz Mixture, Sup. Carb. Soda, Tartaric Acid.

The attention of druggists is called to the above preparations, which have for many years enjoyed an enviable reputation. The Sup. Carb. Soda, which is superior to the best English brands, will be found to be a very desirable article, either for medicinal or family uses. The difficulty in supplying the demand which has heretofore existed will no longer be felt, as we are prepared to supply them in any quantity. All orders received will be promptly executed. We quote as follows:

Kidder's Rochelle Salt, in 50 lb. boxes.....	lb.,	35 cents.
" " " 250 " barrels.....	"	34 "
" Seidlitz Mixture, in 50 lb. boxes.....	"	30 "
" " " 250 " barrels.....	"	29 "
" Sup. Carb. Soda, in 50 " boxes.....	"	11 "
" Tartaric Acid, " 50 " "	"	55 "

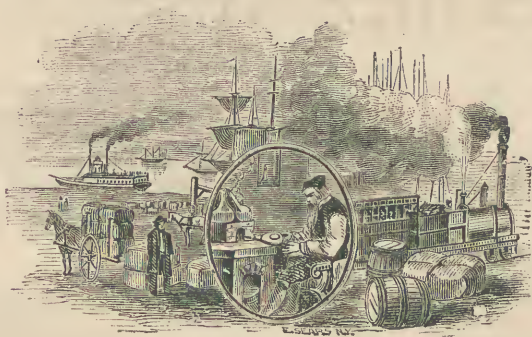

NO CHARGE FOR BOXES OR BARRELS.

NEW-YORK.

JULY, 1876.

WE have pleasure in presenting to our friends and correspondents, our General Prices Current, revised and corrected to date, with the addition of many new articles and remedies, the result of the progress of Chemical and Pharmaceutical Science. And while we can hardly hope to have embraced all the nostrums that the fertility of American and foreign enterprise has given birth to, yet we have endeavored to add to our previous list of goods in this line, at least the more valuable new remedies and proprietary medicines of recent origin. The present edition embraces a much larger number of Chemical and Pharmaceutical Products, as well as Fancy Goods and Druggists' Sundries, than those we have formerly issued, and we have endeavored to arrange them in such a manner as to be easily understood, and trust our efforts in this direction may meet the views of those for whom it is particularly designed. The constant changes in market value of many articles demand a frequent revision and republication of rates, and in order to meet this want as far as practicable, we have, for some time past, issued a Bi-Monthly List of many leading articles, which will be continued in the future, our next issue appearing in October. It will be understood that the prices quoted are subject to changes in the market, and not to be considered binding in case of change in value, or if our stock of any article has become exhausted prior to the receipt of an order. This list will, however, serve as a general guide, and be found serviceable in replenishing stocks, and useful to those who are about to embark in the business. In many articles the prices necessarily are approximate only; but we have endeavored as near as possible to affix correct rates, while at the same time our customers will have the benefit of any decline in prices, and proper allowance for goods ordered in large quantities and original packages.

DRUGGISTS' SUNDRIES, PERFUMERY, AND FANCY ARTICLES.—We have recently very much enlarged this department (which we were the first to make a distinctive feature of the drug business), and our stock now consists of a large and most complete assortment of all articles in this line, of American, English, French, and German manufacture.

SOLUBLE PILLS.—We desire to call special attention to our Soluble Coated Pills, which have now become a standard article, and which are deserving of the high praise bestowed upon them. We have enlarged the list very materially, and with improved machinery and greater facilities, we are enabled to supply them in quantities as desired. Sample cases will be sent to those desiring to see and test them.

TERMS CASH, IN FUNDS CURRENT IN NEW-YORK. The experience of all persons engaged in business during the past fifteen years has satisfied them of the evils of a return to the former system of long credits, and we shall therefore continue to confine our sales to a cash basis, as for some years past. We may, however, say in this connection, that as in the past, so in the future, we will be pleased to extend any reasonable facilities to our friends when occasion requires. Parties with whom we have had no previous business relations, and with whom we have not the pleasure of a personal acquaintance, will facilitate the execution of their orders by accompanying them with drafts to cover approximate amounts of the same, or with references.

We avail ourselves of the present opportunity to call special attention to the importance of knowing the quality of the goods dealt in. Every year affords evidences of the ingenuity and industry of those who are so anxious to make money and so desirous of meeting the demand for *low prices*, that they are induced to buy and sell adulterated goods and goods of an inferior quality, regardless of the want of morality involved in such a course, and of the suffering and risk attending the sale and dispensing of such goods. Of course, those who intrust the execution of their orders to parties whose only criterion is the *price*, can have no guarantee of the *quality* of the articles bought.

Our experience, and that of our predecessors for nearly a century, justifies us in believing that our rule, to sell only goods of reliable quality, and at prices which afford a fair profit, is the only correct one. Our extensive connections with all the markets abroad and at home, afford us facilities for supplying our stock with such goods on the most favorable terms.

In conclusion, parties who may favor us with their orders, whether for large or small quantities, may be assured of our best terms, and of prompt attention. Special quotations will be given with pleasure.

W. H. Schieffelin & Co.

JUICES, FRENCH FRUIT, L'Excellent & Chevassu.

NOTE.—These juices, which are prepared directly from the fruit, are, we believe, unequaled by any other juices in market, and are generally recognized as the standard of excellence for the preparation of Soda

Syrups. They are all in bottles containing one litre, about thirty-five ounces, excepting the Orange Syrup, which is in both full and half litres.

Blackberry, Quince.....	doz.	15	00
Cherry, Wild Cherry.....	doz.	15	00
Currant,	doz.	15	00
Pine-apple, Strawberry.....	doz.	18	00
Raspberry,	doz.	18	00
Red Orange Syrup.....	doz.	21	00
" " half litre.....	doz.	12	00

NOTE.—The following directions should be observed in preparing syrup from the above juices:

Take eight lbs. "A" Sugar; one bottle (one litre) of Fruit Juice, which must not be opened till required for use—and must be filtered to produce a perfectly clear syrup; one quart water.

Mix the above, and when the sugar is well soaked and dissolving, place over a slow fire until the sugar is thoroughly melted; then quicken the heat to make it foam lively; then remove from the fire and skim it.

When required for the fountain, reduce by adding an equal quantity of simple syrup (made in proportion of one lb. sugar to one pint of water), and about four drachms citric acid (dissolved). This will make a syrup that flows freely, and which possesses the rich, natural flavor of the fruit. The addition of the acid is simply a matter of taste, and the quantity may be reduced, or it may be omitted altogether.

* * Other Fluid Extracts will be added to our list of manufactures, as the public may demand, or the developments of medical science may render proper.

While we make a specialty of manufacturing *Fluid Extracts* ourselves, and always put them up when others are not ordered, we nevertheless will supply any other reliable manufacture when designated by our customers.

Soluble Pills.

THE great increase during the past few years in the demand for Pills made in accordance with the U. S. Pharmacopoeia and other standard formulas, has induced us to commence their manufacture in our own Laboratory, and we are now prepared to supply an article that we can guarantee to be made in strict accordance with the standard formulas, both as regards weight and quality. We therefore beg to call the attention of our customers and the public generally to our *Soluble Coated Pills*, which are the result of careful experiment and investigation, with the view of producing an article that will combine the requisites of perfect reliability as to the quantity and quality of the material used, with a coating which is soft, transparent, readily soluble, and not affected by change of climate.

We annex our Price-List for all the kinds we keep in stock, and are prepared to manufacture, in quantity such as may be required, from private formulas. Subject to a discount of 40 %.

W. H. Schieffelin & Co.

 Special Recipes made to order when 3,000 Pills are ordered at one time.

CONCENTRATED TINCTURES.

These Tinctures are among the greatest improvements in modern pharmacy, and embrace the peculiar features for which our preparations have become so celebrated. They combine the essential qualities of definiteness, uniformity, and reliability. The various proximate active principles are isolated singly, divested of all non-medicinal admixture, carefully estimated and re-dissolved in alcohol in exact proportions. Hence, they resemble a definite solution of Morphia, Quinia, or any other definite vegetable alkaloid, and invariably represent an uniform amount of therapeutic power. They are concentrated definite solutions of the entire medicinal constituents of the plants from which they are severally derived.

They are much stronger than any other fluid preparations made from the same articles.

Subject to a discount of 30 %.

IN 8-OZ. BOTTLES 20 CENTS PER LB. ADVANCE FROM PRICE IN 16-OZ.

Concentrated Comp. Stillingia Alterative.

A powerful and efficient alterative. Dose, 1 to 5 drops.

The Compound Syrup of Stillingia may be readily prepared by adding one ounce of this preparation to thirty-two of simple syrup.

Wine Tinct. Lobelia Inflata.

A vinous tincture of the neutral and alkaloid principles of the Lobelia herb. A reliable emetic, without so much of the relaxing properties of the Lobelia as though the Oleo-Resin were present.

DRUG MILLS.

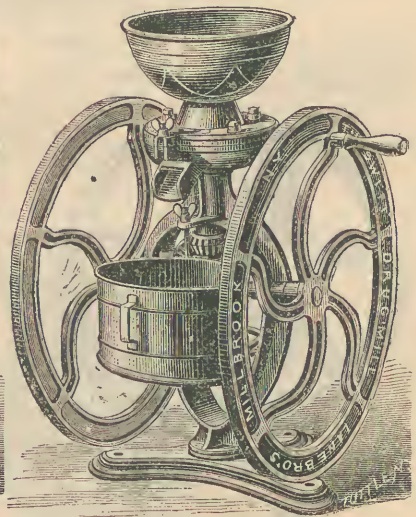

The Swift Drug Mill has been long and favorably known to the trade, and with the improvements from time to time made, it has kept even pace with the times, but this last places it quite beyond all competitors.

We hope to be favored with your order for these mills, and believe that you can not fail to be pleased with them, as they are admirably adapted to the wants both of the Wholesale and Retail Druggists.

We confidently offer these Mills as the very best made. They have stood the test of many years' service in the laboratories of the leading pharmacutists of the country, and may be relied upon for doing perfect work.

This cut represents the Mill open.

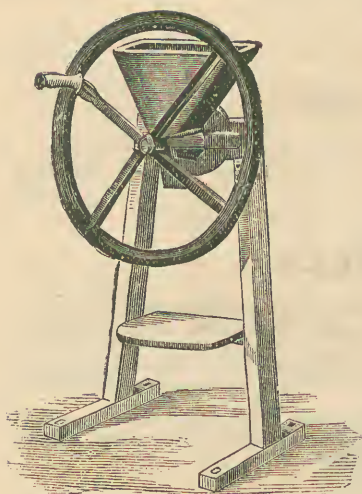

This cut represents the Mill ready for use.

SWIFT'S NEW "B" DRUG MILL.

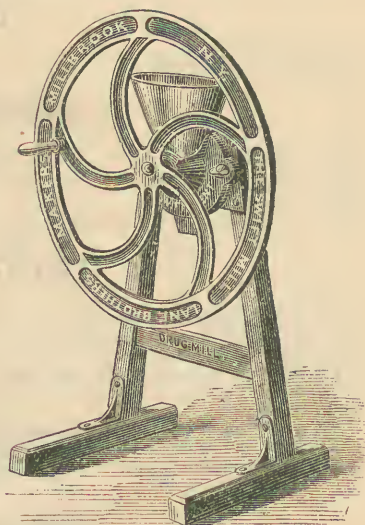

Just out—intended to be screwed upon the counter. The mill has many advantages over the previous ones, having great power, is easily adjusted to any degree of fine grinding, and can be opened as shown in the cut, for cleaning, and closed again ready for work, in ten seconds, and without changing the degree of fineness as adjusted; no tools being required. When open, the parts are in the best possible position for dusting out, and the most unskillful can readily readjust them. The hopper is large, and the can to receive the powder is conveniently arranged.

Dealers as well as users will at once perceive, that Swift's "B" Drug Mill has peculiar advantages over all others that have yet been presented to their notice. It is quite ornamental, and a handsome counter-fixture. The price is fixed very low, with the hope of large sales. Price, \$20.

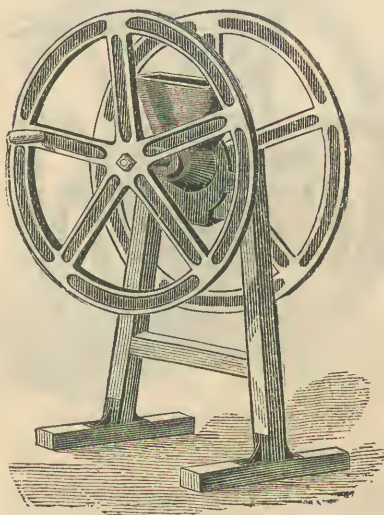

"OLD STYLE."

PRICE.....\$8.00
 We have reduced the price of the "Old Style" to \$8.00, at which price it is, considering quality, the cheapest in the market.

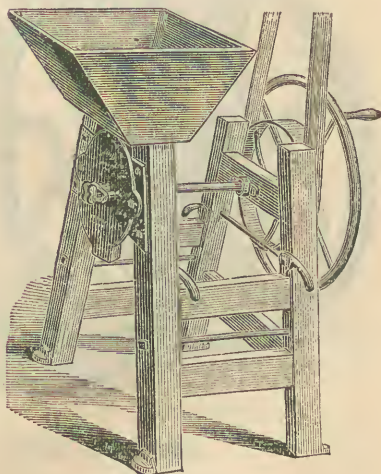

"NEW STYLE."

PRICE.....\$9.00
 The "New Style" is fitted with a heavier fly-wheel, and it is easily taken apart and cleaned.

"CHAMPION."

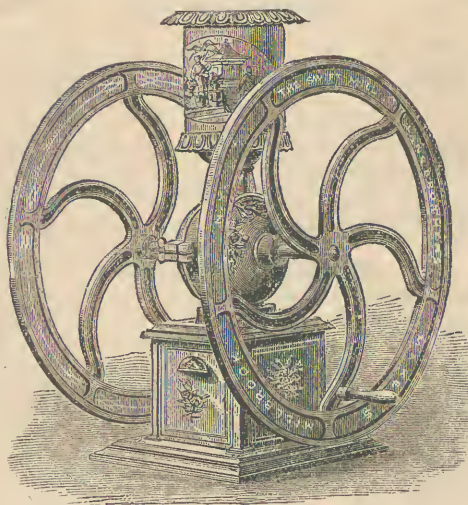

PRICE.....\$13.00
 The "Champion" is fitted with finer grinding plates, thus adapting it for finer work, though it is capable of passing coarse material. Being fitted with two heavy fly-wheels, it may be worked by either one or two persons. The plates of this Mill are quickly and easily separated for cleaning by the removal of two nuts.

"POWER."

PRICE.....\$28.00
 The "Power" Mill is made very strong and of few parts. May be used by hand when other power is not obtainable; and in grinding fine substances a feed arrangement is attached, by which the amount admitted may be graduated according to the power at command.

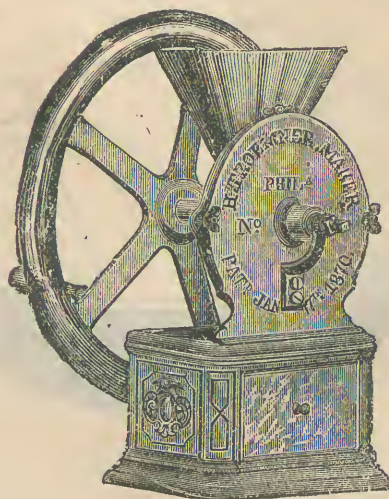

Grinding plates \$2.50 a set.
 Any of these Mills packed in shipping order without extra charge.

No. 16. PRICE, \$20.

The Mill is very similar to the "B" Mill, with the exception that the grinding-plates are horizontal instead of being perpendicular, with the receiver or receptacle inclosed in a drawer. It is readily adjusted to any degree of fine grinding, as easily cleaned and quite as ornamental and handsome a counter-fixture as the "B" Mill.

We can recommend it as a very desirable Mill for the use either of the wholesale or retail druggist. Price, \$20.

PILL MACHINES.

Price Twelve Dollars.

Every Machine Warranted.

This machine makes the four sizes of Pills, 1, 2, 3, and 5 grs., by simply reversing the plates, a work of less than 5 seconds. The wood-work is Mahogany, the metal, Brass.

Patent Allowed April 15, 1872.

Cooper's Patent, as above.....	each.	12 00
--------------------------------	-------	-------

Brass on Mahogany or Walnut Block, with Side Rollers.

W. H. Schieffelin & Co.

ARE SOLE PROPRIETORS OF

ANDERSON'S RHEUMATIC BALSAM.

This article has been in use for the last thirty years, and has proved a most efficacious remedy for the single disease for which it is particularly designed. The ingredients which enter into its composition are in themselves potent, but when combined, as in this Balsam, they seem doubly valuable for their anti-rheumatic power.

It is not necessary to enter into any discussion as to what Rheumatism is, or by what it is occasioned. Every one who has felt a twinge of it, knows more about what it is than the most learned thesis can enable him to understand, either as to its insidiousness or its painfulness. The sufferer desires relief, and this he may find in the use of this Balsam, which is worthy of a place in every medicine-chest, either in the family or on shipboard.

The general directions for its use may be found on the label upon each bottle. Of course these may be modified—as far as the dose is concerned—to conform to the age of the patient and the severity of the attack.

DR. COLTON'S
VEGETABLE
DENTONIC
FOR
CLEANSING THE TEETH,
HARDENING THE GUMS,
SWEETENING THE BREATH.

—♦♦—

This compound, being strictly VEGETABLE, possesses no deleterious properties; on the contrary, its use not only CLEANSSES THE TEETH, but prevents the formation of TARTAR, so destructive generally to the gums. Its TONIC properties give TONE and HEALTHY ACTION to the TISSUES. Invaluable in all kinds of SORE MOUTH. Its pungent, AROMATIC TASTE renders it acceptable to the most fastidious.

—♦♦—

Price, \$4.00 per Dozen Bottles; \$45.00 per Gross.

RETAIL PRICE, 50 CENTS PER BOTTLE.

—♦♦—

N. B.—DR. G. Q. COLTON, it is well known, originated the anæsthetic use of nitrous oxide gas, in 1863, for the painless extraction of teeth. It seems but simple justice to him to state that at his office in the COOPER INSTITUTE, in New-York, he has given the gas (up to this writing) to **89,394** PATIENTS, without a single accident from its effects. The name of each patient is recorded and numbered. These facts afford sufficient proof that the gas, if properly made and administered, is a safe and efficient anæsthetic; and that DR. COLTON has been the means of conferring a lasting boon on humanity.

W. H. Schieffelin & Co., Sole Agents.

LIEBIG'S EXTRACTUM CARNIS.

—••—

LIEBIG'S

EXTRACT OF BEEF,

MONTEVIDEO,

MANUFACTURED BY

LUCAS HERRERA & CO.

Manufactory in South America, Montevideo, Uruguay.

THE Extract of Beef manufactured by Messrs. LUCAS HERRERA & Co., having been examined by Dr. Augustus Voelcker, F.R.S., Consulting Chemist to the Royal Agricultural Society of England, V. Kletzinsky, Professor of Chemistry and Pathology of the Imperial Hospital of Vienna, Dr. E. Reichardt, Professor of the University of Jena, and other celebrated Chemists in Europe, has been recognized as an article of superior quality; and in regard to its purity and flavor is equal to any Extract offered to the Trade prepared according to the improved process of Baron Von Liebig.

The improved machinery employed by Messrs. LUCAS HERRERA & Co., the judicious and economical administration of their establishment, together with the facilities afforded by its unequalled position, (only twenty-four miles from Montevideo,) and the vast pastures and extensive herds of Cattle always ready for the exclusive use of the factory, enable the owners of this important establishment to offer their extract at comparatively low prices, whilst, at the same time, a superior and wholesome article is guaranteed.

This Extract—containing as it does, in a concentrated form, the juices of the meat—combines all the elements of a very nutritious food. For every pound of Extract, thirty four pounds of good butcher's beef are required, exclusive of bones and fat.

This Extract of Beef is free from fat and gelatine, and is indispensable to every household; it is specially recommended for Military and Naval purposes, for Hospitals and Workhouses, and has been found a very useful article of food during sea voyages.

Independently of an economy of fifty per cent as compared with butcher's meat, this Extract imparts to soups, ragouts and vegetables of every kind, the strength and savour of the best broths, rendering every dish richer and more palatable.

For Invalids, Convalescents, and Children of weak constitution, it will be found an inestimable article.

Excellent Soup can be made by dissolving a tea-spoonful of this Extract in a cup-ful of hot water, adding sufficient salt, and a little butter, if required.

This Extract is sent to England in bulk, and is carefully put into jars of required sizes, and by means of improved apparatus.

ROBERT W. GARDNER'S SPECIAL PREPARATIONS.

PROTECTED SOLUTION OF FERROUS NITRATE, (LIQUOR FERROSI NITRATIS.)

This preparation has been steadily growing in favor since its introduction, and is now well known and extensively prescribed, not only in private practice, but in many of the New-York City Hospitals. It is a perfect and permanent Proto-salt of Iron, peculiarly adapted for assimilation, not astringent, containing no free acid, palatable, well borne by the stomach, and very rapid in its effects.

Diploma awarded at Am. Inst. Fair, 1874. The Committee of Judges report as follows:

"We find this article chemically what it is represented to be, and creditable to the manufacturer; we recommend it for a diploma.

"ISIDOR WALZ, Ph.D.

ELWIN WALLER, E.M.

P. W. BEDFORD, Prof. Pharmacy, N. Y. College Ph."

GARDNER'S SYRUP OF HYPOPHOSPHITE OF LIME.

GARDNER'S SYRUP OF HYPOPHOSPHITE OF SODA.

GARDNER'S SYRUP OF HYPOPHOSPHITE OF IRON.

GARDNER'S SYRUP OF HYPOPHOSPHITE OF POTASH.

It is found, that while the result of the treatment of Tubercular disease by the Hypophosphites, in the Hospitals at London and Paris, has resulted in producing various grades of improvement in "*seven cases out of ten*," the treatment in the United States by ostensibly the same remedies has fallen far short of the same ratio of improvement.

The reason for this is undoubtedly to be found in the fact that these salts, as exhibited, are not in a perfect condition of purity. Bearing upon this subject, Dr. Churchill remarks: "Several persons, both in Europe and America, have assumed the use of my name in connection with their preparations of the Hypophosphites. This has been done *without authority from me*, and is the more reprehensible as some of these compounds which have come under my notice are *totally unfit for medical use*." According to the same author, "these salts should be entirely free from impurity and neutral," and it thus follows that they are best administered in solution, from which all impurities have been removed.

These considerations show that in order to obtain the full and best effects of the Hypophosphites:

1st. That they must be *chemically pure and neutral*.

2d. That these conditions are best obtained by treating solutions of these salts for impurities and using such tested solutions only; and as these solutions will not keep without some preservative agent, they are best made into syrups.

Such *tested* and neutral syrups are now prepared by the undersigned, and consist of the three above preparations, each salt forming a syrup by itself, precisely as used by Dr. Churchill, who always administers the salts separately or alternately.

Manufactured by ROBT. W. GARDNER, Pharmaceutical Chemist, New-York,

W. H. Schieffelin & Co., Sole Agents.

CONSUMPTION IN ALL ITS STAGES,

Coughs, Whooping Cough, Asthma, Bronchitis, Fever, Ague, Diphtheria, Hysteria, Rheumatism, Diarrhœa, Spasms, Colic, and Renal and Uterine Diseases are immediately relieved by a dose of

Trade-Mark.

CHLORODYNE is a liquid, taken in drops. It invariably relieves *pain* of whatever kind; creates a calm, refreshing sleep; allays irritation of the nervous system when *all other remedies fail*; leaving no bad effects like opium or laudanum; and can be taken when no other medicine can be tolerated. Its value in saving life in infancy is not easily estimated,—a few drops will subdue the irritation of Teething, prevent and arrest Convulsions, cure Whooping Cough, Spasms, and Flatus at once.

Among invalids, it allays the pain of Neuralgia, Rheumatism, Gout, etc. It soothes the weary aching of Consumption, relieves the soreness of the Chest, Cough, and Expectorations, and cures all Chest Affections, such as Asthma, Bronchitis, Palpitation, etc. It checks Diarrhœa, Alvine Discharges, or Spasms, and Colics of the Intestines, etc.

The extensive demand for this remedy, known as Dr. J. COLLIS BROWNE'S CHLORODYNE, by the Medical profession, Hospitals, Dispensaries—Civil, Military, and Naval—and Families, especially guarantees that this statement of its extreme importance and value is a *bond fide* one, and worthy of the attention of all.

CAUTION:

Always ask for "Dr. J. Collis Browne's Chlorodyne," and beware of spurious compounds or imitations. Dr. Browne placed the Recipe for making "Chlorodyne" in the hands of Mr. Davenport ONLY; consequently, there can be no other Manufacturer. The genuine bears the words, "Dr. J. Collis Browne's Chlorodyne," on the Government Stamp of each bottle.

The following is an extract from the decision of the Vice-Chancellor in the late Chlorodyne Chancery suit—BROWNE & DAVENPORT v. FREEMAN:—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the Inventor of Chlorodyne, that the statements of the defendant Freeman were deliberately untrue, and he regretted to say that they had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See THE TIMES, July 13th, 1864.

WALTON'S

CELEBRATED DERBY PASTE AND GOLDEN LIQUID

ANNATTOS,

FOR COLORING CHEESE AND BUTTER.

The superiority of these pure Extracts of Vegetable Annatto over every other make now in the Market, is fully proved by the numerous Testimonials received from time to time for the past twenty years. It is unquestionably the richest in color and cheapest now sold. Extract from the *Milk Journal*, of 1st June, 1871. "The Fluid Annatto manufactured by Messrs. ANSTEY CHAVE & Co., of Uxbridge, appears from our examination to be one of the *very best* preparations of Annatto to be met with in the market." The following Testimonials have lately been received:

FIELD HALL, UTTOXETER,
STAFFORDSHIRE, Aug. 24th, 1870.
The Derby Annatto has been used here for some years, and has given every satisfaction.
W. MOUNTFORT BLURTON.
Mr. T. W. WALTON, Derby.

BARTON-UNDER-NEEDWOOD,
DERBYSHIRE, Sept. 20th, 1870.
Mr. T. W. WALTON—*Dear Sir*:—The Derby Annatto has been used by me for years, and I consider it to be the best in use.
Yours truly, JAMES HOULT.

EATON, UTTOXETER,
STAFFORDSHIRE, Oct. 7th, 1870.
Mr. T. W. WALTON—*Sir*:—We have used your Annatto for the last two years, and the color of our cheese has given satisfaction to the purchaser.
Yours truly, THOS. S. T. CARRINGTON.

BRAILSFORD, DERBYSHIRE.
Mr. WALTON—*Dear Sir*:—We have used your Annatto for ten years, and find it to be of superior quality as to brightness of color, and free from taste or smell in the cheese.
Yours truly, JOSH. HARRISON.

LONGFORD, DERBYSHIRE, Oct. 7th, 1870.
Sir:—Having used your Annatto, I can with confidence recommend it. Yours truly,
To Mr. WALTON. HALL LOWNDES.

We, the undersigned, having used Walton's Derby Annatto for Coloring Cheese and Butter for many years, bear testimony to its superior and uniform qualities.

MR. CORY, Fendern Mills, Nornanton.
MR. EDGE, Ashleigh.
MR. J. PORTER, Weston-on-Trent.
EDWIN RADFORD, Nornanton.
JOHN BANCROFT, Sinton Moor.
MR. HARRISON, Brailsford.
WILLIAM BAINBRIDGE, Gun Hills.
WILLIAM PORTER, Breadsall.
JOSEPH WATSON, Willington.
WILLIAM SHUTES, Wingfield Park.

ASHBOURNE GREEN,
DERBYSHIRE, Sept. 12th, 1870.
Sir:—We have used your Paste Cheese Coloring during the last eighteen years, and have great pleasure in stating that it has always been a great deal better than any other that has been offered in the market.
I am yours truly,
Mr. WALTON. WM. SPENCER.

OX CLOSE, NEAR ASHBOURNE,
DERBYSHIRE, Aug. 30th, 1870.
Dear Sir:—Having used your Cheese Coloring for many years, I am happy to give my testimonial to its efficacy, and am glad to recommend others to use it.
I remain yours, etc., WILLIAM SMITH.

BIGGIN HALL,
DERBYSHIRE, Sept. 16th, 1870.
Sir:—I am happy to inform you that I have used T. W. Walton's Derby Annatto for the last twenty years, and it has answered extremely well.
From yours respectfully, MRS. GOULD.

FENNY BENTLEY,
DERBYSHIRE, Sept. 26th, 1870.
Dear Sir:—I have used your Paste Annatto for Cheese and Butter for twenty years, and can with confidence say that it is the best I ever met with for coloring cheese and butter.
TIMOTHY CHALLINOR.
To Mr. WALTON.

LEEK, STAFFORDSHIRE, Sept. 7th, 1870.
Dear Sir:—As a large farmer, I have made use of Walton's Cheese Coloring for many years, and found none to equal it.
Yours truly, J. SIMCOCK.

These Annattos are also adapted for general Dyeing of Silks, Woollens, etc., Staining Leather, Coloring Confectionery, and many other useful purposes.

Manufactu'd only by ANSTEY CHAVE & CO., at their Annatto Works, Uxbridge, Middlesex, Eng.

Sold in the United States by

KENT'S RELIEF

FOR

RHEUMATISM.

THE proprietor of this valuable remedy has been afflicted for several years with that painful disease, **Rheumatism**. During that time he has employed several popular Liniments, and so-called Remedies, and has spent hundreds of dollars for fees, medicines, and traveling expenses to different places, without finding relief.

Being, by profession, a well-known **Practical Chemist**, a pupil of the late Professor Torrey, in New-York, and also of Professor Payen, in Paris, he has given much study to the discovery of this valuable remedy, which has proved to be a positive relief for **Rheumatic Pain**.

The Proprietor having retired from business, this remedy may be obtained from the Druggists throughout the country.

EDWARD N. KENT,

Practical Chemist,

NEW-YORK.

SOLUBLE PILLS.

THE great increase during the past few years in the demand for Pills made in accordance with the U. S. Pharmacopœia and other standard formulas, has induced us to commence their manufacture in our own Laboratory, and we are now prepared to supply an article that we can guarantee to be made in strict accordance with the standard formulas, both as regards weight and quality. We therefore beg to call the attention of our customers and the public generally to our *Soluble Coated Pills*, which are the result of careful experiment and investigation, with the view of producing an article that will combine the requisites of perfect reliability as to the quantity and quality of the material used, with a coating which is soft, transparent, readily soluble, and not affected by change of climate.
